Description of fiscal impact:

This bill could have long term negative fiscal impact to the Department of Corrections and the general fund.

FISCAL ANALYSIS

Assumptions:

1. This bill would permit prosecutors to request youth aged 16 or older be charged as an adult in district court, rather than youth court, for the crime of vehicular homicide while under the influence.
2. Since 1990, there has been one instance of a youth involved in a vehicular homicide while under the influence.
3. Judges have the authority to suspend any portion of the sentence.
4. Because only one youth has meet the criteria in this bill and Judges have the authority to suspend any portion of the sentence, it is difficult to determine the fiscal impact for the Department of Corrections.
5. This bill could allow a judge to impose the same sentence to a youth as an adult.
6. Offenders convicted under this bill could add long term fiscal impact to the department of \$33,569 per male offender per year and \$44,348 per female offender per year if convicted under this statute.
